CONTENTS

OPENING THE DOOR TO A WORLD OF POSSIBILITIES

Since the acquisition in 2001, Lepage has been expanding its production facilities, manufacturing equipment and the product range itself. Innovative window and door designs, state-of-the-art milling and manufacturing equipment along with an experienced and dedicated team have enabled us to grow our business in both Canada and the United States.

Our philosophy of being a custom production shop has allowed customers the flexibility they want to design the windows and doors they need for their homes and projects.

At Lepage we strive to meet and exceed your expectations.

A handwritten signature in black ink, appearing to read "Guy Bonneville".

President, CEO

WELCOME TO A NEW CALIBER OF QUALITY

The materials and the assembly techniques used are what make buying a Lepage product a sound investment. Every sash is built using solid wood. This means no finger-joints or man-made composites. These sashes are then assembled using hardwood dowels for unmatched precision and strength. At every step of the manufacturing process we strive to use only the best components and practices available. Built specifically for each customer our products are not mass produced but made according to each particular project.

QUALITY

WELCOME TO THE TEAM

With the fourth generation window maker now at Lepage we certainly are a group with a long history in the window and door business.

AN EYE ON THE FUTURE

From our most senior artisans to our youngest engineers we are a company that continues to grow and innovate every year.

MEETING THE DEMAND

All of us have one goal in mind, to provide you with unmatched quality and options. And to help us with this, our products are distributed through locally owned independent dealers that are as passionate about fenestration as we are. We work closely with these dealers to ensure that your window and door experience is a rewarding one.

TRADITION

TECHNOLOGY MAKES THE DIFFERENCE

To meet our meticulous standards and create an exceptional range of fully customized, high-quality products, we've made considerable investments in sophisticated machinery from as far away as Finland, Austria and Germany.

ONE TEAM. ONE COMMON GOAL.

Our team of discerning experts and meticulous craftsmen work in tandem to satisfy your tastes and meet your needs, on time and on budget.

YEARS OF EXPERTISE

Backed by over 50 years of experience, our customers can count on the capability, flexibility and quality products that have made Lepage Millwork a true leader in the industry.

ALL YOU HAVE TO DO IS ASK

With virtually unlimited design capabilities we can help you create the look and feel your project requires. We offer a wide variety of standard products that you can customize to suit your individual needs or we can work together to achieve your own unique shape, size or designed window and door. We have numerous custom species of wood to choose from along with our standard offering of mahogany, Doug Fir and Eastern White Pine. Primed, painted, and stained finishes are offered for both the interior and exterior of our products along with extruded aluminum exterior cladding for those looking for a more maintenance free aspect. A large selection of hardware, glass and divided light patterns help finalize the perfect blend of form and function.

VARIETY

CASEMENT WINDOWS

OPEN A LONG TERM RELATIONSHIP

Because of their design, casements are some of the best performing products in the industry today. The sash opens to the outside, so wind pressure only enhances the air tightness of the window. Best of all, they complement any architectural style and can be customized in endless ways for your own distinctive look.

ALUMINUM CLAD

For a low maintenance exterior finish, you have the opportunity to choose an extruded aluminum clad for your wood windows. We use extruded aluminum only. Thicker and stronger than roll-form, it provides superior durability, weather and impact resistance and longer life.

FEATURES AND BENEFITS

- Solid wood frame, sash and moldings; no finger-joints for a better look
- Structural construction; multi-section units have common head and sill; no mulling of modules
- Increased protection against leakage and infiltration due to exceptional weather-stripping
- Single, structural post for cleaner lines, better aesthetics, more visible glass
- Glued hardwood dowel sash assembly for solid, long lasting assembly precision
- Option for Push-out Casement

HUNG WINDOWS

CLASSIC LOOKS, CONTEMPORARY FEATURES

Discover the perfect New England window since the Mayflower landed. The double hung has evolved into a technologically-advanced product that operates smoothly and easily. Not only is it practical, but it's sure to add beauty and warmth to your home. Traditional elegance distinguishes the double hung; modern technology gives it the durability of a legacy handed down through generations.

ALUMINUM CLAD

For a low maintenance exterior finish, you have the opportunity to choose an extruded aluminum clad for your wood windows. We use extruded aluminum only. Thicker and stronger than roll-form, it provides superior durability, weather and impact resistance and longer life.

FEATURES AND BENEFITS

- Classic lines with understated elegance and no obvious jamb liners or hardware
- State-of-the-art sash weatherstrip provides minimum friction for easy lift operation
- Block and tackle balances with knife lock system for consistent tension throughout operation
- Solid wood sill, sash and mouldings; no visible finger-joints
- 4 9/16" laminated wood frame
- 1 3/4" solid wood sash

AWNING WINDOWS

RAIN OR SHINE

With their opening at the bottom, the awning window allows you to have fresh air inside your house despite bad weather conditions. The Lepage awning window gives you the flexibility to manage high winds, pouring rain and ever-changing weather conditions.

ALUMINUM CLAD

For a low maintenance exterior finish, you have the opportunity to choose an extruded aluminum clad for your wood windows. We use extruded aluminum only. Thicker and stronger than roll-form, it provides superior durability, weather and impact resistance and longer life.

FEATURES AND BENEFITS

- Solid wood frame, sash and moldings; no finger-joints for a better look
- Structural construction; multi-section units have common head and sill; no mulling of modules
- Increased protection against leakage and infiltration due to exceptional weather-stripping
- Single, structural post for cleaner lines, better aesthetics, more visible glass
- Glued hardwood dowel sash assembly for solid, long lasting assembly precision
- Option for Push-out Awning

ARCHITECTURAL WINDOWS

THE SHAPE OF DISTINCTION

Whatever shape you choose, you get a perfect match with any of our other windows and doors with an enduring touch of distinction that adds charm and value to your home.

ALUMINUM CLAD

For a low maintenance exterior finish, you have the opportunity to choose an extruded aluminum clad for your wood windows. We use extruded aluminum only. Thicker and stronger than roll-form, it provides superior durability, weather and impact resistance and longer life.

FEATURES AND BENEFITS

- Solid or laminated wood frame and mouldings. No finger-joints for a better look
- Matching sight lines when combined with any other windows or doors
- Direct set glazing for finer frame lines and maximum visible glass area, or in-sash glazing for a perfect match with other products
- 4 9/16" laminated wood frame for round tops
- 4 9/16" solid wood frame for polygons
- 1 3/4" and 2 1/4" solid wood sash sized to match any wood product

FRENCH DOORS

THE INS AND OUTS OF ELEGANCE

Step into a world of ageless appeal, dependable protection and extreme durability that makes time seem to stand still. Design or transform your entryway into a classic entrance that will welcome your guests in an unparalleled way.

ALUMINUM CLAD

For a low maintenance exterior finish, you have the opportunity to choose an extruded aluminum clad for your wood doors. We use extruded aluminum only. Thicker and stronger than roll-form, it provides superior durability, weather and impact resistance and longer life.

FEATURES AND BENEFITS

- Custom and standard sizes
- 1 3/4" or 2 1/4" thick panels
- Multipoint or single-point hardware available
- Raised and flat panel options
- Concealed weather-stripping of the highest quality and performance
- 4 9/16", 6 9/16" or 7 1/4" frame
- 5" or 3 5/8" stiles combined with a 9", 5" or 3 5/8" bottom rail
- Available with two, three or four panels
- Combo door available

PATIO DOORS

CLAD COLORS

Wide selection of superior quality opaque paint for a beautiful and durable exterior.

STANDARD COLORS (ON ALUMINUM)

OPTIONAL COLORS (ON ALUMINUM)

Note: Pictures above are for reference only. The color may vary based on the type of application, surface it is applied to, and/or year of production.

WOOD SPECIES

NOBLE BY NATURE

By its nature, wood will give much nobility to your home. It gives off a warm and chic aspect, to suit your tastes, Lepage offers three main types of wood: Pine, Douglas Fir and Mahogany.

Many optional species are also available.

Note: The wood color may vary depending on the type of wood, its grain and texture. The pictures above are for reference only.

GLASS

ENERGY-SAVING

All the latest and best performing options in glazing technology are available in our products, including Low-E, argon gas and more. Just ask and we'll help you define your needs and decide on the best choice.

In the winter, Low-E Argon glazing keeps the heat inside for less heating costs.

In the summer, Low-E Argon glazing reflects heat to minimize air conditioning costs.

DOUBLE GLAZE INSULATED

Among the most popular choices, the double glaze glass will certainly meet your needs.

TRIPLE GLAZE INSULATED

For superior energetic performance and better soundproof, triple glaze is the right choice.

SPECIALTY GLASS

The available colors and patterns will bring a whole new dimension to your glass. Here are some of our models. Several others are available.

TINTED GREY

GLUE CHIP

MOROCCO

LAMINATED GLASS

You want a better resistant glass with the best soundproof. Laminated glass with its PVB films offers additional security against major impacts. This same film will also greatly reduce outside noise. In addition, impacts glass including laminated glass with that special film gives you approved products to the required hurricane region standards.

TEMPERED GLASS

Tempered glass is mainly used as safety glass. Should a major shock causing breakage, the glass will be fragmented into small pieces, small enough not to cause injury. Tempered glass is heated until it softens and then rapidly cooled with air. This gives a compression layer 5 times stronger than ordinary glass.

STAINED GLASS

Brighten your windows with stained glass. The window you choose will allow a constant light without compromising your privacy.

CURVED GLASS

Whether it is for a small tower or other curved part of your house, the curved glass is the most logical and most spectacular option. It will provide significant value to your design and your entire home.

RESTORATION GLASS

The restoration glass exhibits the mild waviness and occasional air bubble characteristic of true antique window glass, making it ideal for historically accurate restorations.

GRILLES

LITE CUT DESIGN MADE EASY

Grilles give your windows and doors extra style and architectural interest. With our huge selection and extensive custom capabilities, lite cut design is yours for the asking. Dream it, draw it, and chances are we'll make it.

SIMULATED DIVIDED LITES

Our very popular standard SDL profile is 7/8" wide with 5/8", 1 1/4" and 1 3/4" as optional widths.

PUTTY GLAZE SIMULATED DIVIDED LITES

The Putty Glaze SDL has a squarer design that goes very well as a contemporary style to a historic style.

DAVIS SIMULATED DIVIDED LITES

The Davis SDL has many similarities with the standard version but is much larger.

TRUE DIVIDED LITES

A luxurious option with timeless authenticity and elegance, each separate lite is individually installed in a solid wood frame.

REMOVABLE GRILLES

Convenient and visually appealing, removable wood grilles create a 3-dimensional surface profile.

GRILLES BETWEEN THE GLASS

The GBG's are permanently fixed between two frames of glass, providing style and cleaning convenience. Other than Georgian, variety of profiles are available.

DIFFERENT TYPE OF GRILLES BETWEEN THE GLASS

TUBULAR

RECTANGULAR

DIFFERENT GRILLES PATTERNS

SCREENS

ALUMINUM SCREEN

The aluminum screen is the most conventional and sustainable for all. They adapt to all products and is available in all colors.

WHITE COPPERTONE BEIGE

WOOD SCREEN

For more harmony with your windows, the wood screen is right choice. Without doubt, this option will also increase the value of your windows and your house. The wood screens are available in Pine, Mahogany and Douglas Fir.

PINE DOUGLAS FIR MAHAGONY

SCREENS MESH

Nothing better than our invisible mesh for an outstanding view. Our fiberglass mesh is very popular. With the same look but a little more durable, the aluminum mesh is the best choice. Our bright copper screen mesh is durable and adds charm to any window screen.

INVISIBLE FIBERGLASS COPPER

WOOD STORM SCREEN COMBO

With its antique and high quality style and for additional energy efficiency, an optional 1 3/4" wood storm/screen combo is available.

ROLL DOWN SCREEN

The idea of never having to remove a screen and enjoy an unobstructed view was not possible not so long ago. Lepage now offers the optional roll down screen. It is as easy to open it as opening your window.

MOULDINGS

MOULDINGS THAT GET AROUND ANYTHING

In addition to our many natural mouldings including colonial brickmould, 908 brickmould, flat casings in different widths and historic sills, we also offer a specially designed aluminum extruded frame cladding that allows for either a nailing fin, brickmould or flat casing. All jamb extensions, brickmouldings, flat casings and subsills come factory-applied for faster and easier installation.

LEPAGE MILLWORK'S WARRANTY

Lepage Millwork offers a warranty that meets your expectations. It provides up to 20 years on selected product components. It reflects the quality of our products and confirms the value of your purchases. For more information, please visit our web site or ask your local dealer.

LEPAGE MILLWORK'S
WARRANTY

Environmentally conscious, Lepage Millwork offers Energy Star products. Energy Star is the international symbol of excellence in energy efficiency. Products that have identification have had severe prescribed procedures, demonstrating that they meet or exceed the standards in this area without offering a lower performance.

Lepage is proud to be certified with the NFRC program which is a non-profit organization that administers the only uniform, independent rating and labeling system for the energy performance of windows, doors, skylights, and attachment products. The NFRC goal is to provide fair, accurate, and reliable energy performance ratings.

* Depending on the options selected, our products can meet the eligibility criteria for Energy Star for your area.

THINKING GREEN

OVER THE YEARS, LEPAGE MILLWORK HAS BEEN MOVING FORWARD IN A MORE ENVIRONMENTALLY DIRECTION. 100% of all wood waste in the manufacturing of our products is used to generate heat and steam for our productions facilities. All cardboard, paper, plastic, aluminum scrap and glass are sent to the proper recyclers.

Our paints, stains and sealers are made with water based formulas which is less harmful to environment. Product delivery schedules are thoroughly planned in order to maximize the space in each delivery truck minimizing the amount of trips made. Production supplies are purchased in bulk from vendors that are located close to the facilities to limit the distribution distance. Thinking green encompasses our entire company and as we move into the future we will contribute to a cleaner environment and a cleaner world.
